

PERSONAL STATEMENT

This block of content is intended to give a very brief introduction of the project. Read more about the project in `README.md`. By default, this block is placed in the `preamble` section of the resume's layout. Other sections include the `core`, `side`, and `postamble`. The profile picture can be replaced at `data/profile.jpg`. The links above (e.g. website, social media handles, email) are configured in `main.typ`.

EXPERIENCE

Most important role

This part of the resume layout is the `core`. This block of content is intended for important content that looks nice when it's only a bit wider than half the page width.

- The dates next to the above subheadings are created using the `Date` component.

Least important role

2023—2024

By default, only `experience.typ` is included into the `core` block. Feel free to include content from other files here too.
